

Virginia Military Advisory Council Installation Issues

- ▶ School–Based Behavioral Health Interventions negatively impacts physical and psychological safety, specifically with respect to military connected students as a subset of highly mobile students.
- ▶ College and Career Readiness to support military children and access to financial information for higher education.
- ▶ Retention of quality teachers to significantly impacting academic performance to military connected students.
- ▶ Military School Identifier to school aged children in K–12.
- ▶ Identify ways to ensure localities receive full Impact Aid.
- ▶ STEM Partnerships with local schools to support STEM events at the installations.
